Agency: Colorado Department of Health and the Environment

Purpose of Contact: Administrative Closure of tank D879 and heat exchanger E810

Discussion

Contact Record dated October 17, 2003 administratively closed tanks D827, D830, D832, and D834 because the only water passing through these tanks was the product water from the evaporators and was going to the cooling tower or steam plant. Tank D879 and heat exchanger E810 are downstream of the above tanks and should have been included in the earlier contact record. Therefore, the State has approved the closure of D879, E810 and all the equipment in between closed as permitted equipment not handling hazardous waste.
